Avature Specialist Masterclass Agenda

Choose your own adventure: Select between 3 tracks focused on taking control of your Avature instance and learn new tools and configurational best practices along the way.

▶ **Take on Wizards:** Curious about how to make changes within your custom portals? Start here with a live demo breaking down the functionality and versatility of wizards. We'll grant you access to the Interactive Platform to put your knowledge to the test and practice configuring the tool yourself, with guidance every step of the way. After completing the masterclass, you'll have the opportunity to take an online assessment and unlock your own Wizards permissions.

▶ **Customization through Portals:** Through our Portal Apps Builder tool, we'll inspire creativity and share professional insight to design captivating portals that meet your business' needs and create unique user experiences. Be prepared to transform ideas into portal apps in our game-inspired hands-on activity – for branding enthusiasts and creative minds alike.

▶ **Integrations Control Panel:** Explore how to unlock the full potential of system integrations with Avature Junction, your own access to manage integrations from the core application. Start with identifying use cases and establishing APIs for data exchange, then dive into the development phase where we'll utilize Avature's intuitive flow-based programming tool to implement your models.

New features released throughout 2024 and what impact they represent in your everyday actions in Avature.
